INTELLECTUAL PROPERTY FILING PACKET

Internal Software Ownership Certificate

Documentation prepared for intellectual-property registration in Malabo.

Responsible founder: Benjamin Bob Bechiro. Company: BeCorps.

Document Control

Title:	Internal Software Ownership Certificate
Product:	National Digital Addressing System
Responsible founder:	Benjamin Bob Bechiro
Company:	BeCorps
Document type:	Internal certificate
Status:	Supporting document for intellectual-property registration preparation in Malabo.

Purpose

This internal certificate identifies the software components and the person responsible for their design and implementation for the registration packet.

Certification

- It is internally certified that the National Digital Addressing System has been designed and implemented under the responsibility of Benjamin Bob Bechiro, founder of BeCorps.
- The system consists of an administration web application, service API, relational database, evidence storage, operational automation, and associated technical documentation.

Software components

- Citizen portal and public lookup routes.
- Administration and operator portal.
- API service for authentication, registry, review, publication, and reporting.
- Address-code generation and validation engine.
- GIS, road, building, territory, and address registry modules.
- Audit, activity, publication, export, and field-evidence system.

Supporting record

- Source code, data structure, application routes, endpoints, and technical manuals serve as evidence of software scope and control.
