Document Control

Title:	Version and Release Register
Product:	National Digital Addressing System
Responsible founder:	Benjamin Bob Bechiro
Company:	BeCorps
Document type:	Register
Status:	Supporting document for intellectual-property registration preparation in Malabo.

Purpose

This register establishes version-control evidence to demonstrate evolution, traceability, and documentation readiness of the system.

Documented base version

- Packet version: 0.1.0.
- Status: controlled pilot and intellectual-property registration preparation.
- Scope: public routes, administrative operation, API, database, GIS, reports, audit, controlled publication, and training manuals.

Included components

- Frontend and backend source code.
- Database schema and internal migrations.
- Technical and operational documentation.
- Bilingual training manuals.
- Government proposal and supporting documents.

Future-version rule

- Each future version should preserve number, description, affected modules, responsible person, test evidence, and administrative approval date where available.
