Document Control

Title:	Operations Manual
Product:	National Digital Addressing System
Responsible founder:	Benjamin Bob Bechiro
Company:	BeCorps
Document type:	Operations manual
Status:	Supporting document for intellectual-property registration preparation in Malabo.

Purpose

This manual defines how to operate, maintain, back up, and support the system during controlled pilot and institutional preparation.

Daily operation

- Check health of API, administration portal, database, storage, and cache.
- Review requests, evidence, reports, and publication queue.
- Maintain active users with least privilege required.
- Record incidents and maintenance actions.

Maintenance

- Back up database and evidence before major changes.
- Test backup restoration in a controlled environment.
- Update documentation when modules, endpoints, or rules change.
- Separate test data from institutional data.

Support

- Route operational errors through the system responsible person.
- Document reproduction steps, impact, and resolution.
- Do not publish sensitive data in support reports.
